📄 PROFILE

I am a front-end developer with expertise in creating static projects using HTML, CSS, and JavaScript. I am proficient in utilizing CSS frameworks like Bootstrap and Tailwind to enhance the design and responsiveness of websites. In terms of JavaScript, I specialize in React and have developed dynamic and responsive websites using this framework. I also have experience working with Redux Toolkit, which enables efficient state management in complex applications. Additionally, I have built websites that simulate API interactions using Axios. I am passionate about creating engaging and user-friendly web experiences, and I continually strive to expand my skills in order to deliver high-quality projects
